First of all, you can create a character by choosing which elements you wish to equip, and then purchase the elements you wish to equip. In addition to selecting the weapons, armor, and magic, you can create your own skills as well. • Cast It Like a Dragon Basic attacks can deal extremely large damage depending on your character's attack power. While continuous attacks can deal damage over time, they also consume stamina, so you must use skills properly in order to deal damage. If you are caught by a monster, the monster will get damaged as well and be unable to move until the next frame. • Get to the Core of the Enemy Enemies are attacked using magic, spells and special weapons that deal a certain percentage of the enemy's HP. But, by simply getting close to the enemy, you can deal a large amount of damage. • Experience an Exciting Battle, with the Muscles of a True Savior Enemies do not move around randomly, they have a specific AI that allows you to maneuver around them in an interesting way. Take advantage of these enemy behaviors to be more effective. • Ingenious Skill Combinations Using skills with combinations is an effective means of attacking enemies. By keeping track of your character's movement, you can make effective use of your skills, creating even more explosive damage. • Close the Distance and Dodge at the Perfect Moment By using your skills, you can move to the right place at the perfect time to avoid damage, but the skills consume stamina. Take advantage of these moments where your stamina is low to dodge attacks effectively. • A Brave Hero that Flies in the Wind Your character's stamina is replenished at the end of each battle. When you use special skills that require stamina, your stamina is depleted to zero, and you can choose to use special skills with a "losing stamina" effect. If stamina is depleted, you can quickly recover it. • A Game with a Simple and Intuitive Interface Drag items to your action menu to equip them. The interface is simple to use, and different skill effects are indicated clearly so that you can always enjoy the gameplay. • Let It Rip - A Compelling Online Action RPG As an online game, you can experience an adventure in the Lands Between with people from all over the world at your side. In addition, you can feel the presence of other players, even when playing with other people. Bring your power to the next level with the CYHO
