Four days ahead of India's Republic Day, Union Home Minister Amit Shah held a meeting in New Delhi with his Pakistani counterpart Rajnath Singh, in which both pledged to work towards normalization of relations between the two countries. "The two sides took a broad-based approach to discuss further measures on border areas and the people-to-people contact in the coming days," Rajnath Singh's office said in a statement. "Both sides agreed that the bilateral relations are most critical at present. India has expressed concerns about recent cross-border terrorism which has led to loss of innocent lives," it added. "The two sides also talked about the need for maintaining peace and tranquility in Jammu and Kashmir and other areas." The meeting with Prime Minister Narendra Modi is scheduled to take place in Delhi on Monday. Rajnath Singh has shared his views with Shah on a range of issues, including cooperation in counter-terrorism, the situation in Kashmir, and the on-going Indo-Pak dialogue process, the Ministry said. Amit Shah also told the Pakistani counterpart that "post-independence relations between India and Pakistan should be a symbol of peace and friendship". "Cultural ties between the two countries cannot be treated separately from political ties," Amit Shah said. "Both Prime Minister Narendra Modi and I visited the Samarthan Bhoomi of Guru Ravidass at Rajasthan's Pushkar. We are also in the process of renovating the famous Srinagar dargah of Hazrat Syed Muhammad Hussain Saqib Nizami," he added.Q: What are the strategies of a mapreduce program? I'm currently reading the Mapreduce Programming Guide written by Stuart Schneider. He says, In MAPREDUCE 2.2, the Map function extracts the key and value from each input item and emits them as a key-value pair to the Reduce function. The map task's output is reduced by the 6d1f23a050
