Baptist College Digitalectronicsbookbysalivahananpdf12 P&G Director:Anand Kumar
Director:Anand Kumar Jigsaw (2016) Archambald Jigsaw (Alex McGregor) was born in 1593 and grew up in London. There he showed a lot of ability in several fields, such as drawing, architecture and sculpture. He displayed his skills at King James's Court, where his proficiency and wit led to his employment as the King's personal architect. During James' reign, Jigsaw also designed the Brighton Pavilion, London Bridge, and several monuments for the New Palace of Westminster, London. After the death of James, Jigsaw joined the new regime and served as both architect of the Soho Square Ordinaries (the church), and the Master Mason. Although he was never more than a Master, he was always a great innovator, and encouraged masons to enhance their craft with his newly-discovered design secrets. During the reign of Charles I, Jigsaw became the self-appointed architect of Scotland, and designed the Scottish parliament at Holyrood (Edinburgh) and the Scottish College for the Royal Society. He also designed the City and University of Edinburgh, and all the underground cellars that secure the city. In 1637, the English took control of Edinburgh and forced Jigsaw to join them, and he resigned all his offices to avoid deportation. Jigsaw was an innovative engineer and artisan, and in recognition for his contributions to his countrymen, he became Master Mason, second only to the Grand Master. During his lifetime, Jigsaw founded the Grand Lodge of England, and the Royal Society of St. Patrick, and even took part in the construction of the Soho Square Ordinaries.
